

NoahAI service guide

Technology and workflow advisory, prepared and reviewed by NoahAI.

You receive customer-specific Word and PDF documents for an agreed scope. This is advisory work, not a software subscription, automated company audit, or implementation service.

Service	Pricing
Technology and AI Decision Brief	\$995
Workflow Strategy Package	\$1,950
Enterprise Technology and AI Strategy	Contact us for pricing

What you receive

Tier 1: A 6-8 page decision brief for one workflow in one department, a workflow map, up to three options, official sources, data boundaries, and a 30-day action plan. Target: 7-10 business days after complete safe intake and cleared payment.

Tier 2: A recommendations report for up to two related workflows across two departments, maps, options, cost/value assumptions, a measurement plan, and a 60-day pilot outline. Target: 15-20 business days after complete safe intake and cleared payment.

Enterprise: Discuss your goals and complexity with NoahAI. A typical engagement covers up to three related workflows across three departments, a cross-team handoff map, leadership summary, 90-day pilot plan, and one 45-minute Teams or Zoom session. Scope, exact fee, and timeline are confirmed in writing before acceptance. Additional work requires a separate agreed scope.

Your approval comes before payment

Submit a high-level request. NoahAI reviews fit and safety, then approves a written scope and price. You review and accept the agreement before payment is requested. Word and PDF delivery are included unless you request one format. One consolidated written clarification round is included within 10 calendar days of delivery.

Information and service boundaries

Bring department names, software names, role-based task owners, goals, obstacles, and made-up examples. Do not send client, patient, employee, applicant, financial, credential, or production records. This service does not authorize NoahAI to receive PHI and is not a business associate agreement. Legal advice, clinical guidance, compliance certification, managed IT, implementation, and guaranteed savings or results are excluded.
